

SPAN 312J, SPAN 312M, SPAN 312S: Foundations of Spanish Culture

OBJECTIVES:

In this course, we offer a vision of Spanish culture and civilization, concentrating our interests on the city of Seville. We will focus on historical development and the analysis of achievements of Spaniards throughout history, paying close attention to those factors that influence our identities the most (such as language, literature, art, social organization, economy, folklore, music, and film) in order to understand the personality, character, lifestyle, and cultural inheritance that we have today.

We will utilize the resources of Seville and its surroundings, the experience of past and present in music, art, architecture, and popular culture, such as flamenco and film. Multiple class visits throughout Seville will illustrate the themes discussed in class.

STRUCTURE:

The classes will begin with a brief presentation of general concepts related to each diverse historical time period. Following this introduction, the students, supported by readings, will define the characteristics of each time period and analyze each one of the aspects discussed, developing their critical thinking skills. Our classes will end with a projection of slides and videos. Also, frequent visits will be organized where students are expected to actively participate. These visits will be guided by the students themselves as personal projects.

All students will receive a list of key questions on each topic. This list will aid in the preparation of readings and facilitate the comprehension of the material studied.

Each student will complete **a research project** about one specific aspect of a subject studied in the course. The report will be 4-6 pages, written in Microsoft Word, using Arial 12-point font, double-spaced, and following the norms of the Writing Program. The deadline for handing in this project will be two days before the final exam.

TEXTBOOK:

DE QUINTA GARROBO, A. Lecciones de cultura y civilización española. Sevilla: Editorial Diada Editora, 2012.

EVALUATION:

Students will be evaluated throughout class, with special emphasis on class participation; class attendance is obligatory. A student who attends every class will have a minimum participation grade of 60 and a maximum participation grade of 100. A student who does not attend a single class will have a participation grade of 0. Absences should be approved by the professor and the Resident Director.

To supplement participation grades, the professor may ask students to complete brief quizzes about information from the previous class at the beginning of the following class without prior notice.

There will be two tests throughout the course.

The student will complete a research project to complement his or her final grade. Therefore, the final grade will be based on the following components:

1) Participation	20%
2) Mid-term Exam	20%
3) Final Exam	20%
4) Oral Presentations	20%
5) Research Project	10%
6) Activities	10%
